

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the oldest newspaper published in British Columbia; it is read by every business man from New Westminster to the Rocky Mountains, and is the most valuable advertising medium for the Colony. David Ferguson, its proprietor, is in Victoria, and L. P. Smith, its manager, is in San Francisco, and are our authorized agents.

This paper may be read gratis at the Central Establishment of "Hawthorn's Patent" on Overland, 244, Strand, where applications and subscriptions for the same are received.

ANOTHER WITNESS.

Every body hereabouts knows how diligently the editor of the *Victoria Colonist* has striven to attach odium to the Governor, even going the length of attempting to attach the stigma of cowardice to His Excellency, in connection with the late Grouse Creek dispute. Coward, indeed! The Governor threw himself, unaided and unprotected, into the arena of bitter strife, with the hope of allaying the angry elements without the expenditure of treasure or blood. In fact his whole course in connection with this unfortunate affair is eminently characteristic of courage, firmness, and self-sacrifice. It is a question whether the editor of the *Colonist* would have ventured to show himself on Williams Creek about that period, without a strong guard of marines! The *Colonist* has, as we have said, offered a factions and most ungentlemanly opposition to the policy pursued by His Excellency throughout the whole affair. Its local contemporary the *News* has approved of that policy. Both of the newspapers published at the capital have done the same. The fifth, and only other paper published in the colony, the *Cariboo Sentinel*, was silent upon the subject, until a final decision had been given. Published upon the spot, where opportunities for forming a correct opinion were great, it is, perhaps, matter of regret that the *Sentinel* should not have been in a position to speak out, and place the whole case in a proper light before the country.

attributed much of the misapprehension which obtained respecting the real merits of the case. But the editor and proprietor of that paper was so intimately associated with the Canadian company that silence became, perhaps a duty and a virtue. And all must admit how religiously he has discharged that duty. The matter having been finally settled, restraint is removed; and, although in direct opposition to the interests of himself, his friends and connections, he approves of the decision—the hearing was patient, the decision just! And what has he to say about the course adopted by the Government, and which alone brought about this happy and satisfactory result? He regrets that Judge Begbie did not do, in the first instance, what Judge Needham has done in the last. But, respecting the Government, he says "As the matter has turned out," (seeing Mr. Begbie did not so act), "however, the Government has taken THE BEST COURSE POSSIBLE, under the circumstances." The capitals are our own. Such evidence as this from one on the spot, and personally cognizant of all the circumstances, from first to last, and from one, too, who is so to speak, more than unbiased, in the matter touching which he now so emphatically testifies, such evidence, we say, from such a source will outweigh a thousand times all the columns of blarney misrepresentation and vulgar abuse with which the *Colonist* has teaped during the last two months. Another circumstance which adds to the value of this evidence is, the well known fact that the *Sentinel* is, in politics, opposed to the Government, rather than a supporter of it. Thus, then, the *Colonist* stands entirely alone in this matter. Of the five journals published in the colony, four approve of the course which His Excellency adopted in this dispute. And we venture to say that, as far as public opinion is concerned, the proportion in favor of that course and against the *Colonist* is even greater than four to one. Indeed, we are in a position to state positively that the course—one might almost say brutal—style recently adopted towards Governor Seymour in that paper has not only alien-

ated every other member of the Fourth Estate from it, but has produced a general, perhaps we might say, universal feeling of disgust throughout the colony. The Governor may well come to the conclusion that to be abused by the *Colonist* is indeed the highest compliment that can be paid him.

TELEGRAPHIC.

EUROPE.

LONDON, Oct. 15.—Jim Macé, the pugilist was arrested in bed last night, and put under bonds to keep the peace. He was about to fight the Irish giant for the championship. It is asserted that the pugilists were to cross to France or Ireland and fight. Some are of the opinion that Macé sold the fight purposely.

There are wild rumors that the Fenians are planning to seize the person of Queen Victoria at Balmoral. Little credence is given to the report, but precautionary measures have been taken and the household guard at Balmoral are doubled.

(Evening).—The Fenian alarm is spreading. The Government are in receipt of many dispatches announcing the possible plans of the brotherhood. Troops and gunboats have been dispatched to Ireland and the entire western coast guarded with extraordinary vigilance.

The news from Italy to-night is very important. The entire press of Italy are almost without exception in favor of the seizure of Rome by the Government. The strength of the party of action increases hourly, and recent successes have given them new courage. Sharp fights have occurred at various points in the province of Viterbo, in all of which the insurgents were successful. The Pope has called an immediate meeting of the Cardinals to consider the situation.

Continued manifestations of Garibaldi's to invade Roman territory cause much financial uneasiness here and in Paris.

PARIS, Oct. 15.—It is reported that the Emperor Napoleon III. has offered Napoleon the assistance of Spain in sustaining the temporal power of the Pope.

It is reported that if the condition of affairs in Rome becomes critical the Pope will take refuge in Bavaria. Great activity prevails at the Naval Arsenal at Toulon.

FLORENCE, Oct. 15.—Exciting news is just received of a battle fought near Frozzone between the Garibaldians and the Papal troops, in which the former were victorious. The strong detachments of Papal troops which were sent last week to prevent the junction of bodies of revolutionists were unsuccessful, and obliged to meet the united forces of the insurgents, under the personal leadership of Menotti, Garibaldi's son. A desperate fight ensued, outside of the Papal States, in which the Papal troops were badly beaten, losing heavily in killed and wounded. The Garibaldians lost but 5 killed and 15 wounded.

The last advices from the Papal forces say they are falling back on Rome.

MIDNIGHT.—Garibaldi has issued another address from Caprera, earnestly urging the Italian people to arise. It is believed that La Marmora is in command on the frontier, and will occupy pontifical territory, and possibly march on Rome. Thurin Mazarini has issued a manifesto entreating Italians to rise and proclaim a Republic.

NEW YORK, Oct. 17.—*Express* says private advices from Europe regard war as imminent. The purchases of land and flour in this market by France strengthen this belief.

A private cable dispatch says there is an uneasy feeling in Paris, and apprehensions that the French troops will occupy Rome.

PARIS, Oct. 16.—The Emperor has summoned a general council of the Cabinet to consider the affairs of Italy. The result of their deliberations was a resolution that France should immediately interfere for the settlement of the Roman question, but without the action or conjunction of Italy. According to the *Moniteur* he censures Italy for violating the law of nations in disregarding solemn treaties and fostering a dangerous spirit of republicanism. Owing to the prospect of

intervention the financial depression increases.

Official accounts from Crete confirm the report of a renewal of hostilities. The idea of returning to the allegiance of Turkey has been scornfully rejected.

OCT. 17.—The *Moniteur* asserts its belief that Rome and the Papal provinces will be loyal to the Pope. The *Patrie* argues that French intervention will be necessary to save Italy from revolution and anarchy.

OCT. 18.—Napoleon has made an imperative demand on Italy for a strict observance of the Convention of September.

The expedition at Toulon is equipped and ready to sail for the relief of Rome. It is only awaiting the reply of Italy, which is hourly expected.

FLORENCE, Oct. 17.—The news continues favorable. The revolutionists have entrenched themselves at Paolo, and the Papal troops await reinforcements before making further advance. A deputy of the Italian Parliament commands the insurgents there.

OCT. 18.—Reinforcements of French and Spanish volunteers for the defense of the Pope have arrived at Rome.

Menotti, the son of Garibaldi, with a considerable force, has reached the vicinity of Rome.

The Italian troops are still guarding the frontier to prevent persons having the appearance of Garibaldians from crossing.

It is reported that the plan for insurrection in the city of Rome has been exposed and the leaders thrown into prison. Another report is that Garibaldi has escaped from Caprera and has left the island, going aboard an American ship.

Garibaldians have seized the railroad between Rome and Ostia and interrupted communication with the seaboard.

It is believed in Florence that Italy and France have a perfect understanding and are really acting together in their treatment of the Roman question.

VIENNA, Oct. 17.—The Catholic Bishop protested against the adoption of the new Concordat and urged the Emperor not to revise the sacred treaty between Austria and Rome. The Emperor republishes the Austrian bishops for adopting a paper liable to create excitement at a time when tranquility is necessary for the restoration of the country. He reminds them that the Emperor of Austria is a constitutional Prince as well as a true son of the church. The Reichsrath received the announcement of this reply with prolonged cheering.

EASTERN STATES.

CHICAGO, Oct. 15.—The *Times* special details an interview with the President. The latter said the report of the Cabinet changes were wholly unauthorized and untrue. He did not include the War Department, as he regarded that as virtually vacant, and said that he did not intend to make changes in haste, but would act with careful deliberation for the best interests of the country. There had been tremendous pressure for change by delegations; letters and telegrams urged him to remove all his Cabinet but Wells and Stanbury.

NEW YORK, Oct. 15.—The President authorizes publication of the following statement: Whoever shall be appointed Secretary of War will be appointed outright, *vice* Stanton removed, the President holding the tenure of office bill to be unconstitutional.

OCT. 16.—The *Poll's* Washington special says members of the judiciary committee in favor of impeachment are confident the project will receive the approbation of a majority of the House. They will press the subject early in the session.

NEW YORK, Oct. 17.—A special dispatch from Philadelphia says that the Republican Central Committee have determined to contest the election of Sparswood; the latter's official majority is 741. The Democrats of Ohio are considering the propriety of contesting Hayes' election on the ground that negroes voted in some of the counties contrary to law. The case would be tried before the Senate, which has a Democratic majority of two.

ST. LOUIS, Oct. 17.—The ground was broken and work commenced yesterday on the Southern Branch Union

Pacific Railroad at Junction City, Kansas.

WASHINGTON, Oct. 16.—The State Department has published a pamphlet containing information regarding trading ports in Alaska, valuable for those contemplating settling there.

The *Express* says the trial of Jeff Davis will probably commence on the 28th. There will be an effort made to obtain a jury of whites. The jury now stands nine negroes and three whites.

MEXICO.

NEW YORK, Oct. 18.—Havana advices from Vera Cruz say that Santa Anna has been sentenced to exile for eight years.

OCT. 19.—The *Herald's* Havana special says the Mexican election resulted in favor of Juarez in the States of Mexico and Guadaluajara and all the principal States of the interior.

CALIFORNIA.

SAN FRANCISCO, Oct. 17.—Arrived—Last night, str. Moses Taylor, San Juan Del Sur.

Sailed—To-day, str. Oriflamme, for Portland.

THE BRITISH COLUMBIAN.

The British Columbian.

WEDNESDAY, OCTOBER 23, 1867.

FROM CARIBOO.

The str. Lillooet, Captain Fleming, arrived from Yale on Monday evening, bringing a considerable number of passengers, amongst whom were Mr. Butler Anderson, and several others from Williams Creek, including three members of the Canadian Co. They left the creek on the 11th inst., bringing a few copies of the *Sentinel* of the 10th, which, however, contains no news of importance. It is stated that Messrs. Beedy, Nelson and Bates have bought up all the wheat in the middle districts and are having it manufactured into flour at Adam's Mills, Soda Creek. We understand, however, that there is no intention on the part of these gentlemen to take advantage of the monopoly thus created, for materially raising the price of flour. Having the control of the market, they intend keeping prices at a most reasonable figure, being content with a good fair profit upon the transaction, and for which they have ample room without resorting to the expedient of running up prices. In fact to materially raise the price of flour in Cariboo this winter would be a suicidal policy even as respects themselves. The supply of potatoes is so very large that the population could almost subsist through the winter without bread, and thus, in the event of the price of flour being run up, the speculators would be left with much of the stock lying upon their hands in the spring. So that whether the character of the men or the circumstances of the case be taken into account, or both taken together, there is, we believe, no reason to apprehend any injury to the public interests from a legitimate business transaction which may, in a sense, be called a flour monopoly. Potatoes are selling at from 6 to 8 cents @ lb. on Williams Creek, and it is believed they will not exceed 10 cts. during the winter.

Intelligence reached Williams Creek on the 10th that the Hard-up Co., adjoining the Heron Co., on Grinse Creek, had got upon the edge of the rich lead, and hoped to take out "big pay" in a few days.

The news from Musquito Gulch continue to be most encouraging. Mr. Anderson, a gentleman of great experience, gives it as his opinion that this new mining ground will quite equal, if indeed, it does not exceed, Williams Creek in point of richness and importance, and that next year it will be equally, if not even more, attractive. In this opinion Mr. Anderson is by no means alone. There appears to be a general belief, in the best informed and most reliable circles, that Musquito Gulch, including Red Gulch, will employ as many men and yield as much gold next season, as Williams Creek.

THE BLACKFOOT MINES.—Several of the passengers who arrived by the str. Lillooet, on Monday evening were from the Blackfoot mines; or rather they were on their way to those mines when they were induced to retrace their steps on account of the doubtful tales related by the numerous parties whom they met. It would appear that the Blackfoot mines, which our neighbours would have us to believe were destined to eclipse our own, have proved a "fizzle."

THE SITUATION.—On our first page will be found an excellent article from the *New York Albion*. The *Albion* is an influential paper established nearly half a century ago, and is the recognized organ of the English residents. The article is evidently written by one who fully apprehends the situation, and the various important issues are fairly and forcibly put. It will well repay a careful perusal.

QUICK DISPATCH.—The str. Emily Harris, Capt. Frain, arrived on Saturday morning, with a quantity of goods for Messrs. Cunningham Bros. She left for Nanaimo on Sunday, returning again on Monday with a cargo of coal for Mr. Holbrook. The Emily Harris will sail for Nanaimo this morning.

THIS EXHIBITION.

The Managing Committee met on Monday for the purpose of winding up the business of the Exhibition. The accounts, with but one exception, had been sent in; and by approximating the amount of the exceptional bill, the Committee found that the amount realized by the nominal admission fee was ample to liquidate all the liabilities, leaving a surplus of a few dollars, which it was decided should be kept as a "nest egg" towards a fund for next year's Exhibition. This is certainly a satisfactory, as it is an unusual result, financially, as the balance is almost invariably on the other side of the sheet. Indeed, when the Committee fixed the admission fee at so low a figure as 25 cents for adults and 12 1/2 cents for children, they scarcely ventured to hope that it would create a fund adequate to pay all the expenses of the Exhibition, and quite anticipated having to make up a considerable balance in some other way.

In the hurry of the moment one prize was overlooked by the Committee, that of \$2 for the best hops. The prize fell to the lot of R. Ker, Esq., Auditor General. It has since been handed to that gentleman, and he has given it to the Royal Columbian Hospital.

In our published lists we also made an omission. Mr. S. W. Herring obtained Honorable Mention for the best "domestic wines," made from currants and other garden produce; also, Mr. H. W. Smith received Honorable mention for the second quality of wines. There were sixty-two Exhibitors. Mr. S. W. Herring was the most extensive, having exhibited forty-eight different articles, getting one of the Governor's Ten dollar prizes, and sixteen Honorable Mentions!

The Committee adjourned till half-past 7 o'clock on Wednesday the 2d proximo, when they will hold their next and final meeting for the purpose of adopting the necessary preliminary measures for organizing an Agricultural Society. The object is an important one, and it is to be hoped that every member will make a point of being present.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria last evening, with freight and passengers. Our exchanges contain no local news of importance. Dr. Trimble is a candidate for the Mayoralty, in opposition to Mr. McDonald.

THE PRINCESS OF WALES.—The reports of the health of Her Royal Highness are reassuring; she continues at Wiesbaden under the care of Mr. Paget. The *Medical Times* states that she is beginning to walk and regaining flesh.—*London Times*.

ROYAL COLUMBIAN HOSPITAL.—The Committee of Management of the Royal Columbian Hospital desire to acknowledge gratefully the receipt of \$55 subscribed at Quesnelmouth, in aid of the Institution.

THE CHALLENGE.

To the Editor of the *British Columbian*. Sir, In reply to "A. Victoria Volunteer's" communication I quite agree with him that I am of "such a confident disposition as to believe every statement" made in the newspapers, when facts alone should guide them. *Vite the Colonist* of July 22d, where it says in reference to the late match that the Victoria Volunteers had several of their best marksmen absent which implies that the New Westminster Ten were not in reality beaten by their best Ten. In order to give these "best marksmen" who were absent an opportunity to show themselves, I therefore, withdraw that part of my previous challenge to which exception has been taken, and, instead of the money stake, I now offer a gold medal of the value of Fifty Dollars, to be shot for on Saturday November 16th, at the Brunette Butte, and the following ranges:—200, 400, 600 and 800 yards the Lancaster or Enfield Rifles to be used, the match to be open for all Volunteers. The medal to be shot for annually, unless won by the same person, at two consecutive matches, when it will become the absolute property of the winner.

THE SABBATH IN CARIBOO.

We had occasion, two or three weeks ago, to allude in terms of strong reprobation, to the circumstance of a public sparring entertainment having been given on Williams Creek, on the Sabbath day, by Wilson, of P. R. notoriety, having for its object the raising of funds to augment said Wilson's stakes in the then approaching so-called prize fight; and we, at the same time, accused the *Sentinel* of dereliction of duty in noticing the outrage as an ordinary item of local news, unaccompanied by the slightest intimation of disapprobation. Our contemporary devotes an article to the subject, in his issue of the 10th, in which a very poor attempt at wit is made, without, in any way, expressing regret at having inferentially lent the influence of his paper to the encouragement of Sabbath desecration of the most flagrant description. Thus it would appear that a reticence which we were anxious to believe was a mere oversight was really attributable to a less venial fault. Where the officers of British law permit such scandalous Sabbath desecration under their very noses, and where the public press not only withholds its censure but encourages it by a nod of approbation, it is scarcely surprising that the law of *man et tuum* should be held somewhat loosely.

Mrs. Stubbs, meeting Mrs. Bell on the street, accosted her thus:

"My dear Mrs. Bell how do you do; O my dear I have so much trouble about the children's boots and shoes; almost every week I have to buy each of them a new pair! Where can I get some boots that will last at least for a month?"

Mrs. Bell: "Why, my dear, go to J. S. Clute's, on Columbia street; I buy all the children's shoes there, and only get a new pair for each of them every four months; and you'll find him the best and most straightforward men to deal with."

A correspondent of the *Steele Paris*, the Government organ of France, writes from Tunis, Algiers, as follows:—"Our College of philosophers at home may, and probably do accomplish a great deal for the cause of science, but the Americans are the people to turn these discoveries to practical account.—Many of the modern inventions in use here are American, and one American chemist, Dr. J. C. Ayer of Lowell, supplies much of the medicine consumed in this country. His Cherry Pectoral, Pills, Sarsaparilla and Ague Cure constitute the staple remedies here, because they are of easy application, sure in their results, and have the confidence of the people. While the science of medicine is carried to a higher perfection in our own country (France) than any other, it strikes a Frenchman as a little singular that an American Physician should furnish the medical skill and remedies for our principal Province.

We are happy to inform our readers that these superior remedies which the Emperor's principal Province is obliged to get from America, may be had by our neighbours at the Drug Stores of Dr. W. M. Jones, and H. W. Smith.

HOLLOWAY'S OINTMENT AND PILLS.—Unsolicited Testimony.—Mr. Rippon, Hairdresser of Exeter, in a letter dated July 1st, 1867, writes: "My wife had been a great sufferer for several years from bad legs. After trying many different applications for months together to no purpose, a lady strongly recommended your medicine, and I do assure you we feel most thankful to her and yourself for the perfect cure they have effected. My wife is now able to take a walk of four miles with comfort. I only hope it may be the means of inducing other sufferers to use your admirable remedies, which have proved a blessing indeed to us." Such testimonials are indisputable.

GOOD ACCOMMODATION.—Travellees to Cariboo this season will find most comfortable quarters at the Colonial Hotel, Soda Creek, the enterprising proprietors Messrs. McLeese & Senay being prepared to afford to those who may favor them with a call increased accommodation at a much less cost than hitherto.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

GO TO

THE NEW

GROCERY STORE

COLUMBIA STREET,

NEW WESTMINSTER B. C.

Where you will find everything in the GROCERY line, the best and cheapest, for CASH, to be had in the CAPITAL.

Our Coffee, Tea and Chocolate, for flavor unsurpassed; with prices low, to suit the times, a trial's only asked. To those who use the "wood," we are willing, ready, able to furnish them with any length of the "Atlantic Cable." We're "Shelton's Brand," and other kinds so much admired for chewing; Cigars, Cheroots, and Fancy Pipes, for gents who go awooing. Of Pie Fruits and of Pickles too, we have every kind on hand; with sauces also, pure and good, of every different brand. In Ketchups and in Essences, our shelves are quite replete; these have become essential for flavoring what we eat. Split Peas and Pearl Barley, most excellent for soup; and Sago for the little folks, an antidote for croup. Stove polish—what's so nasty as a rusty metal stove? Shoe-blackening too of a glossier hue than silk or satin or even wash. Wash Tubs and Wash Boards too we have, no better made, we think, nor cheaper can be had elsewhere, in either wood or zinc. Of Buckets we have quite a lot; as well as fine corn Brooms, and brushes plenty, no excuse for keeping dusty rooms. To the Sportsman we can offer a well-selected lot of gun-caps and of powder too, and every size of shot. Our candles, they are very good our coal-oil choice refined, no one here will sell them cheaper; just bear this fact in mind. Our soap is also good and cheap, and old—we don't like new; with Glenfield starch so highly famed, and the best of button blue. Biscuits of various kinds we have, and crackers crisp and sweet: bacon and hams, so nicely cured, they really are a treat. Our sugars, we are safe to say, must meet a large demand, because they're bright and sweet and pure, nor mixed with gritty sand. We have oatmeal too for porridge, or, if you prefer it,—brose, this is the food both strong and good as every SAXON knows.

Spices from the isles of the Indian seas; cloves, cassia, pimento, and such things as these; melons that will melt of themselves in the mouth; peaches and grapes from the far sunny South; currants from Zante, raisins from Spain, will tempt you to buy them again and again. Plums and apples from "Richmond," pears from the Sound; onions from Frisco' so big and so round that few, if any, weigh less than a pound. We purchase farm produce, pay in goods or in cash; sell again at slight profits, just to free us from loss. To those who are either "on the buy," or "the sell," just step in next door to the Colonial Hotel; our goods are for sale we invite your inspection, convinced when once here you will make your selection, and always return for such things as you need.—Fair play—honest dealing, a part of our creed.
